Philippine Domain Authority Convenors

The **Philippine Domain Authority Convenors** aim to create the organization which is open to **all Philippine Internet stakeholders**, INCLUDING BUT not limited to the academe, science and research organizations, IT groups, civil society, and the government. The Philippine Domain Authority, as the representatives of the the Philippine Internet Stakeholders will ensure the stable and continuous operation of the .PH ccTLD registry which will be fair and equitable to all.

The Convenors are for the **adequate and competent representation** of the community in the .PH ccTLD policy-making and decision-making. We aim for the full accountability of the .PH ccTLD administration to the community. We aim for a .PH ccTLD registry which is neutral, non-partisan, and fair to all Philippine Internet stakeholders.

The Convenors of the Philippine Domain Authority wish to invite everyone interested in reforming the .PH ccTLD administration to join us in our studies and proposals towards the reform of the PH domain administration.

SUBMIT YOUR COMPLAINTS!

Complaining about the way the PH domain has been managed has been a fact of life in Philippine cyberspace since 1994. Now's your chance to do something about it.

We are now compiling all complaints regarding the management of .PH. Send your complaints via email or mail them to us. For more information, click here.

The Mailing List

We also have a new mailing list up on Yahoogroups (doesn't everybody?) If you want to be on it, write phildac-owner@yahoogroups.com and indicate why you believe the PH domain administration needs to be reformed.

About this Website

This is the official website of **PhilDAC**, a group currently pushing for the a major reform of the PH domain administration and its redelegation to a non-profit organization, with broad representation from stakeholders of the local Internet community.
